

● TAIST Accessory Sets

05.1614508	TAIST 1 Accessory set, complete for callipers with bevel measuring jaws for measuring lengths up to 150 mm or 6 in	●	
05.1614501	TAIST 2 Accessory set, complete for callipers with measuring jaws having 5 mm cylindrical measuring faces for internal dimensions	●	
<i>Consisting of:</i>			
05.1614502	1 Pair of measuring inserts with cylindrical pins, 2,2 mm dia.	●	●
05.1614503	1 Pair of measuring inserts with conical points	●	●
05.1614504	1 Pair of measuring inserts with knife-edge measuring faces for external dimensions	●	●
05.1614505	1 Pair of bevel inserts with knife-edge, cross-over measuring faces for internal dimensions	●	
05.1614506	1 Pair of measuring inserts with small, off-set measuring faces for internal dimensions, 50 mm long	●	●
05.1614507	1 Pair of bevel inserts with knife-edge measuring faces for external dimensions	●	
05.1614525	1 Pair of attachments for callipers with bevel measuring jaws	●	
05.1614526	1 Pair of attachments for callipers with cylindrical measuring faces for internal dimensions, size A = 4,6 mm, B = 5 mm	●	
	1 Wooden case	●	●

Optional Accessories

Callipers with measuring lengths ≥ 750 mm

05.1614512	1 Pair of measuring inserts with cylindrical pins		
05.1614515	1 Pair of bevel inserts with knife-edge measuring faces for external dimensions		
05.1614517	1 Pair of inserts with cone-shaped measuring faces for internal dimensions		

Attachments for callipers with cylindrical measuring faces for internal dimensions

05.1614522	1 Pair of attachments	A = 5 mm	B = 10 mm
05.1614523	1 Pair of attachments	7 mm	10 mm
05.1614524	1 Pair of attachments	10 mm	10 mm

A = Thickness of the measuring jaws B = Size shown in the drawing (page A-12)

Factory standard

Use of either measuring insert No. 05.1614505 or 05.1614506 increases displayed or read values by 15 mm or 10 mm, respectively.

Stainless steel measuring inserts
Measuring faces hardened to 550 HV 30

Each pair of measuring inserts is supplied without attachments which must be ordered separately

Wooden case

● Magnetic Magnifying Glass

Can be mounted on callipers or the like for easier vernier reading.
